Slip-Resistance Measurement: The Current State of the Art

By Stephen D. Pillic, ARIM, AIC, AMIM, and Keith Wieder, PB

The current state of the art in slip-resistant surfaces is discussed, with a focus on the role of engineered materials and systems. The article highlights the importance of selecting the right materials and configurations to meet specific safety requirements.

The Compass

Safety & Health Management Systems Assessments

By Paul A. Eyestick, CSP, CIH

A comprehensive approach to assessing safety and health management systems is presented. The article outlines the key components of an effective system, including policies, procedures, and training. It also provides guidance on how to identify and address gaps in system effectiveness.

New Hospitality Branch Picks Up Steam

An update on the progress of a new hospitality branch is provided. The article highlights the challenges faced and the strategies implemented to achieve success in this new venture.

Society Fellow

Being selected as a Society Fellow is a distinct honor—the highest that a professional member of ASSE can receive. It reflects peer recognition of lifelong excellence in the field of safety and recognizes dedication to advancing the safety profession and acknowledges significant contributions to the Society. ASSE is pleased to announce the 96th through 102nd Fellows: Philip E. Goldsmith, CSP, ARM; Robert E. McClay Jr., CSP; William E. Phillips Jr., P.E.; and Joseph J. Townsend, CSP, ARM, AICM, AIM.

Philip E. Goldsmith, CSP, ARM

Philip E. Goldsmith is senior safety officer, chief of occupational safety and health for Federal Emergency Management Agency (FEMA) in Alexandria, VA, where he directs a staff of 50 professionals who are responsible for the safety and health of FEMA's 2,500 employees and 5,000 disaster responders, as well as FEMA's partners in the Federal Response Team. He has worked in the safety industry for more than 30 years for companies such as Liberty Mutual, The Valdron Group, and The National Gallery of Art. A member of the National Capital Chapter, Goldsmith has been involved in chapter activities and projects throughout his 25-year Society membership. During his first year as a member of the Greater Boston Chapter, Goldsmith was awarded the chapter President's Cup as the year's outstanding volunteer. He also served six years on the Society's Board of Directors and is a member of the risk management/insurance, transportation and consultants practice specialties.

Robert E. McClay Jr., CSP

Robert E. McClay Jr. is currently a safety consultant and adjunct professor at Eastern Carolina University, Greenville, NC. He taught at Indiana University of Pennsylvania (IUP) for more than 20 years, where his leadership helped shape IUP's Safety Sciences Dept. into a leading safety-related curriculum in the U.S. His efforts helped more than 1,500 students develop into safety professionals. He continues his contributions to education and the profession by teaching OSH graduate courses at Eastern Carolina University. A member of ASSE since 1973, McClay was an active (continued on page 2)

Poster Contest Winner
New Jersey is home to numerous Fortune 500 companies' headquarters. The 5th smallest state in square miles, New Jersey manages to house ports, two international airports and a skilled workforce. Approximately 88% of the population has a high school diploma or higher and there are 50-plus colleges and universities scattered throughout the state. This helps provide for a talented labor pool.
