- perhaps rotate locations of meetings between north and south New Jersey locations
155.199.282

- Meeting topics are often chosen based on being able to find somebody to lead the meeting rather than actually choosing a topic. So it's not like we have an unlimited number of topics to choose from. I think looking at topics of articles in recent Professional Safety gives the planners some ideas of what is currently being written about in safety. NSC magazine has a lot of articles on worker safety so could look at those topics as well. From there you have to go back to the first point - finding somebody who is willing to do the meeting.
155.058.657
Wednesday, May 25th 10:27AM
- Compliments to the NJ Chapter for all what they are doing!
155.045.352
Wednesday, May 25th 7:26AM
- Maintain a consistent day of the month so people can plan ahead of time.
155.042.780
Wednesday, May 25th 6:33AM
- Question #12 above allows only one (1) choice. there are multiple factors which affect me. Topics, day of week, travel time/ distance. For me personally and business-wise, I am very busy. It's tough to fit it all in.
155.042.503
Wednesday, May 25th 6:18AM
- Plan a yearly calendar. Change locations across the State.
Wednesday, May 25th

 155,042,221	Plan a yearly calendar. Change locations across the State,	Wednesday, May 25th 6:21AM
 155,041,625	Need a bit more time to settle in new position.	Wednesday, May 25th 6:04AM
 155,032,162	Better collaboration on topics and initiatives to drive interest in membership and health and safety. More PDCs on relevant topics.	Wednesday, May 25th 2:43AM
 155,025,896	Meetings should be held in a more casual setup, and dinner should be provided.	Tuesday, May 24th 11:42PM
 155,022,470	Advanced scheduled dates for planning purposes; invite those new to the profession or "bring a supervisor" events to a roundtable event to share EHS stories, struggles and pull support and ideas from the experienced; outreach to sites / companies with bad events or enforcement troubles.	Tuesday, May 24th 8:48PM
 155,019,927	New member, so no suggestions at this time	Tuesday, May 24th 7:38PM
 155,010,989	I like to receive email notifications of the upcoming meetings more than once. I would prefer a notice at the beginning of the month, then again each week to remind me.	Tuesday, May 24th 3:26PM
 154,750,594	Strapped right now. Will look to attend at other commitments wane.	Thursday, May 19th 7:11PM
 154,739,041	<p>ASSE have had some interesting meeting topics and site visits. I have had travel or other work related or personal conflicts and have not attended in past year.</p> <p>Another factor is that I'm a CIH and CSP. If I attend the AIHA meetings I receive a letter for CM credit. That said ... been busy the last year and haven't attended many AIHA meetings either.</p>	Thursday, May 19th 2:40PM
 154,494,479	<p>The idea of incorporating an online meeting/webinar into the annual schedule is a great idea. This makes meetings more accessible to folks who may not be willing to travel for certain meetings.</p> <p>Would it be possible to set up Go To Meeting (or similar program) call numbers for the business and technical presentations at meetings? This way members could call in for all meetings. Ex: at the February meeting at Firmenich, people could have called in for the general meeting discussions and Ron Kurtz technical presentation, but those people obviously would end their call when the group leaves for the tour.</p>	Monday, May 16th 1:06PM
 154,484,865	Stick to the same day of the month, e.g 3rd thursday. consistency allows people to plan	Monday, May 16th 10:01AM

 154.378.976	It's more about me. I live and work in western Morris county. Some of my not attending is having to commute across the state.	Friday, May 13th 6:54PM
 154.375.525	Change time and week of meeting. More variation would bring different folks. I tend to travel the 3rd week of the month and it is hard to get to meetings if they are all scheduled that week.	Friday, May 13th 4:58PM
 154.369.969	I would appreciate being able to schedule the ASSE meetings for the year-knowing the dates at the beginning of the chapter year. Also, I would like more variety in topics presented.	Friday, May 13th 2:46PM
 154.361.530	None that I can think of right now.	Friday, May 13th 11:59AM

 154.353.576	During normal business hours	Friday, May 13th 9:54AM
 154.353.332	None, I am committed to too many organizations at this time and have 2 young kids in sports and scouts that I'm also actively involved with. Possible day meetings could be easier for me to attend and if they were quarterly or Semi Annually.	Friday, May 13th 9:56AM
 154.352.868	Sometimes unable to attend due to my schedule, or distance to meeting location from central Jersey, meeting topic or speaker not of interest.	Friday, May 13th 9:40AM

OUt of the box idea - give a \$25 gift card to any member who attends 4 meetings in a year. Does not include those on E-Board. Need to do a special e-mail pitch to those unemployed members - not sure how we identify them. ASSE has good value for those unemployed. I know we give them free admission.  155,048,958	I am in transition from full time safety consulting to semi-retirement and am scheduling training or other safety related activities with companies that I have worked with in the past. The normal ASSE Chapter meetings have been on Thursday Evenings which happens to be my college night. I have been an adjunct professor at KEAN University for the past 30 years and have had continual scheduling conflicts. I do appreciate the news letter and keep up with the information I have received from the chapter. Thanks.	Wednesday, May 25th 8:16AM

 155,010,989	To better answer question 12, it's not just dependent on travel time/location of meeting. It also depends on the topic and my schedule for the week. To better answer Q22, I don't mind virtual meetings as additional meetings, but I do not like them replacing the in person monthly meetings. I believe the biggest benefit to the meetings is networking with our colleagues and getting to know people. This is not accomplished through virtual meetings.	Tuesday, May 24th 3:26PM

 154,378,976	In my short career I have watched volunteer organizations really struggle of late to engage volunteers to support the effort. My response above is a clear indication of the current more with less approach that we all wrestle with...wanting to be a part of the work you're doing, but not in a position to do so.
